EDUCATION

Full Stack Academy Bootcamp

553 hours of full-stack web
development coursework

March 2020 - June 2020

New York, NY

Long Island University

Biology / Pre-Pharmacy

June 2016 - June 2019

Brooklyn, NY

Awards

Honors Society

SKILLS

Languages

JavaScript

Typescript

HTML5

CSS / SCSS / SASS

GraphQL

Libraries

React.js

GatsbyJS

Redux

jQuery

Axios

Node.js

PROFILE

I am a Front-End / Web Developer with 3+ years of industry experience working for FieldRoutes and ServiceTitan, as well as freelancing with clients directly to develop their dream websites. At FieldRoutes and ServiceTitan I developed a scalable templating software for clients to quickly deploy fully customizable themes. Passionate about aesthetics and blending the art of design with programming. Experienced in working with a team to design, develop, test, and deliver pixel perfect and responsive web applications on a deadline. I enjoy solving problems and finding new ways to optimize performance.

WORK EXPERIENCE

Front End Developer

ServiceTitan

February 2022 - November 2023 / Remote

- Developed a scalable templating software with over 50 different themes using GatsbyJS and a headless CMS for our clients to quickly deploy fully customizable websites for thousands of clients.
- Migrated existing CMS from Kentico to Strapi whilst optimizing and updating all components within our software.
- Perform debugging and troubleshooting of applications using JIRA.
- Write detailed technical documentation outlining system architecture, coding conventions and best practices.
- Implement agile development practices across multiple projects, ensuring timely delivery of high-quality solutions.
- Implement software components to automate manual processes.
- Develop pixel perfect components using Javascript, SCSS, and HTML, on the React framework, based off of Adobe XD designs.

Front End Developer

FieldRoutes

May 2021 - February 2022 / Remote

- Developed a scalable templating software with over 50 different themes using GatsbyJS and a headless CMS for our clients to quickly deploy fully customizable websites for thousands of clients.
- Transferred over legacy code base to a modern framework using React, Gatsby, and Kentico as one of the first developers on the team with React and Javascript experience.
- Executed software build and release processes.
- Wrote technical documentation for users and colleagues regarding system architecture and development process.
- Researched and implemented emerging technologies and best practices in software engineering.
- Analyzed user needs to determine necessary improvements to existing software.
- Participated in Agile sprint planning meetings to discuss development tasks.

Frameworks

React.js
GatsbyJS
jQuery
JestJS

Additional Technologies Used

Adobe XD
Headless CMS (Kentico & Strapi)
Gatsby Cloud
Jira
MongoDB
PostgreSQL
Context API
React Hooks

- Debugged issues in existing codebase to identify root cause of problems.
- Integrated third-party API's into existing applications for additional functionality.

Full-Stack Developer

Freelance Web Development

September 2020 - May 2021 / Brooklyn, NY

- Designed and developed web pages for local small businesses and clients.
- Used React, Javascript, Typescript, SCSS, GraphQL, Headless CMS, and Netlify to manage the creation and deployment of sites.
- Worked directly with clients in the process of UI/UX design.
- Created efficient and scaleable website architecture.
- Created scaleable CMS architecture and efficient queries as well as trained clients on how to implement changes using a CMS.
- Met client deadlines and offered support and maintenance of all sites built.
- Developed pixel perfect and responsive websites.
- Used various API's to meet client needs.
